## **Quayle Action**

 This application is in condition for allowance except for the following formal matters:

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: the specification must be amended to provide antecedent basis for the limitations of "reusable addend"; "applying the sequence to each known sequence of values to produce respective sets of addends, each set of addends corresponding to a respective known sequence of values and including said at least one reusable addend", determining respective correlation results responsive to said respective sets of addends" and "wherein said set of addends of said respective sets of addends have been reduced by a common subexpression elimination algorithm" as recited in claim 1, the limitation "product addends" recited in claim 12; the limitations " producing a common addend; producing a first and second set of addends, by applying said sequence of values to the first and second known sequence of values, respectively; calculating a first and second correlates based on said first and second set of addends, respectively; recited in claim 15; the limitations "adjusting the common addend" recited in claim 16.

Prosecution on the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO**MONTHS from the mailing date of this letter.
